SA's Post-PC Business Landscape

Come and join Geek Patrol for some coffee, croissants and a catchup.

We are hosting our iPad BootCamp for Business on Wednesday, 27 March 2013

At Geek Patrol we specialise in the post-PC revolution that is beginning to reshape our world. Consumers are already flocking to these new technologies like smartphones and tablets, and smart businesses are not far behind.

We will be joined by radio personality and financial journalist, ***Hilton Tarrant***, who will explore the state of mobile in South Africa, presenting you with the 'real facts' of this revolution.

A peek at the menu, just to whet your appetite:

- What the post-PC era means for your business
- Recommended apps for common tasks in business - does my business need a custom app ?
- How to integrate, deploy & manage iPads, iPhones and apps in your business
- Common challenges deploying & managing post-PC devices
- Tips and Tricks for using the iPad
- User training

8 for 8.30am

27 Wednesday, 27 March 2013

Level 3, The Quarterdeck, 69 Richefond Circle, Ridgeside Office Park, Umhlanga 4320

Don't miss these regular Business Power breakfasts to keep up-to-date with the fast changing world of post-PC technology.
